

Guardian Capital Mutual Funds 2023 Distribution Summary (as of December 31, 2023)

Important Note: These amounts represent the 2023 tax factor breakdowns for distributions paid to Unitholders for the tax year ending on December 31, 2023. The taxable allocations of the distribution amounts are shown as a percentage per unit for illustrative purposes only. Unless otherwise described in a Fund's prospectus, the payment of distributions is not guaranteed and may fluctuate for any payment period.

Any Unitholder who purchased or redeemed units during the period may have proportionally different tax factors attributed to their distributions. In the event of any inconsistencies resulting from use of the data shown in these tables and information reported in a Unitholder's T3 tax slips, the information contained in such T3 tax slips shall prevail. For more information or to request a copy of your T3 tax slip, please contact your investment advisor directly.

* These Funds did not pay any distributions in calendar year 2023.

1. The Guardian U.S. Equity Fund is valued in USD. Distributions for Series I are paid in USD, while distributions for Series A & F are converted to and paid in CAD.
2. The Guardian Ultra-Short Canadian T-Bill Fund and Guardian Ultra-Short U.S. T-Bill Fund were launched in June 2023, and their distributions reflect a partial year.
3. The Guardian Ultra-Short U.S. T-Bill Fund is valued in USD, and distributions are paid in USD.

NOTE: Any portion of a Fund's distributions that were not paid in cash; rather they were reinvested in additional units and consolidated, are considered notional distributions. The net asset value per unit is unaffected by a notional distribution, and the impact to unitholders will be an increase in the Adjusted Cost Base (ACB) of their holdings by the amount of the notional distribution.

This distribution and tax data is for informational purposes only and should not be construed to be tax advice. Please consult your own tax advisor for advice.

Distributions are paid in Canadian dollars unless otherwise stated. Each Fund makes distributions in accordance with the distribution policy stated in its Prospectus. Distributions may consist of net income, dividends, net realized capital gains, and may also include return of capital. Distributions are determined by a variety of factors that occurred during the current tax year, including the gains realized on the disposition of securities by the Fund, the amount of dividend income and interest earned by the Fund, the volume of purchases and redemptions of Units of the Fund, and the amount of any unrealized appreciation of the Fund's portfolio at year-end. If distributions paid by the Fund are greater than the income and performance of the Fund, distributions paid may include a return of capital and an investor's original investment will decrease. A return of capital is not taxable to the investor, but will generally reduce the adjusted cost base of the securities held for tax purposes. If the adjusted cost base falls below zero, investors will realize capital gains equal to the amount below zero.

The payment of distributions should not be confused with the Fund's performance, rate of return or yield. Future distribution dates may be amended at any time. Reinvested distributions are not paid in cash but instead remain invested in the Fund. To recognize that reinvested distributions have been allocated to investors for tax purposes the amounts of these distributions should be added to the adjusted cost base of the units held. The characterization of distributions for tax purposes (such as dividends/other income/capital gains etc.) will not be known for certain until after the Fund's tax year end. Therefore investors will be informed of the tax characterization after year-end and not with each distribution. For tax purposes these amounts will be reported annually on official tax statements by the tax reporting deadline.

This communication is intended for informational purposes only and does not constitute an offer to sell or the solicitation of an offer to purchase Guardian Capital mutual funds and is not, and should not be construed as, investment, financial, tax, legal or accounting advice, and should not be relied upon in that regard. Please read the prospectus before investing. Commissions, trailing commissions, management fees and expenses, as well as applicable performance fees for Guardian Strategic Income Fund only, all may be associated with investments in mutual funds. For mutual funds other than money market funds, unit values change frequently. For money market mutual fund Units, there can be no assurances that the mutual fund Units will be able to maintain their net asset value per unit at a constant amount or that the full amount of your investment in the fund will be returned to you. Mutual funds, including money market funds, are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. Mutual funds are not guaranteed and past performance may not be repeated.
