Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

In general, you'll have to pay tax on any money you make on a fund including your share of the fund's earnings and on taxable capital gains from redeeming your investment. How much tax you pay depends on your tax rate, whether or not you hold the fund in a registered plan and the type of earnings of the fund (e.g. interest, dividends, capital gains, etc.). In general, you do not pay tax on your investments held in a Registered Retirement Savings Plan, Tax-Free Savings Account or other registered plan.
