HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a Fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Guardian Capital LP has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the risks of investing in the Fund?" section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

This section tells you how Series A Units of the Fund have performed over the past seven calendar years. Returns are after Fund expenses have been deducted. These expenses reduce the series returns.

Year-by-year returns

This chart shows how Series A Units of the Fund have performed in each of the past seven calendar years. The series dropped in value in three of the past seven calendar years. The range of returns and change from year to year can help you assess how risky the series has been in the past. It does not tell you how the series will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for this series of the Fund in a 3-month period over the past seven calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3-months ending	If you invested \$1,000 at the beginning of the period
Best return	16.42%	June 30, 2020	Your investment would rise to \$1,164.21
Worst return	-29.06%	March 31, 2020	Your investment would drop to \$709.43

Average return

A person who invested \$1,000 in this series since inception now has \$1,968.17. This works out to an annual compound return of 9.00%.

WHO IS THIS FUND FOR?

This Fund may be suitable for you if:

- You are looking for Canadian equity exposure for your portfolio.
- You are comfortable with medium investment risk.
- You plan to hold this investment for the medium to long term.

A WORD ABOUT TAX

In general, you'll have to pay tax on any money you make on a fund including your share of the fund's earnings and on taxable capital gains from redeeming your investment. How much tax you pay depends on your tax rate, whether or not you hold the fund in a registered plan and the type of earnings of the fund (e.g. interest, dividends, capital gains, etc.). In general, you do not pay tax on your investments held in a Registered Retirement Savings Plan, Tax-Free Savings Account or other registered plan.

If you hold your investment outside of a registered plan, you will receive a tax slip showing your share of the fund's earnings. You must include the amounts shown in your taxable income whether you get them in cash or have them reinvested. You must calculate your taxable capital gains from redemption.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A Units of the Fund.

The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose the initial sales charge option when you buy Series A Units. Ask about the pros and cons of this option.

Sales charge option	What you pay		How it works
	In percent (%)	In dollars (\$)	
Initial sales charge	0 to 5% of the purchase price of the Series A Units you buy	You will pay a fee of \$0 to \$50 on every \$1,000 you invest	You and your representative negotiate the fee, which may be up to 5% of the cost of the Series A Units, and you pay this fee to your representative's firm when you buy the Series A Units
2. Fund expenses			
You don't pay these expenses directly. They affect you because they reduce the Fund's returns.			
As at December 31, 2023, the Series A expenses of the Fund were 1.93% of its value. This equals \$19.27 for every \$1,000 invested.			
			Annual rate (as a % of the series' value)
