HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a Fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Guardian Capital LP has rated the volatility of this Fund as **low to medium**.

The rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

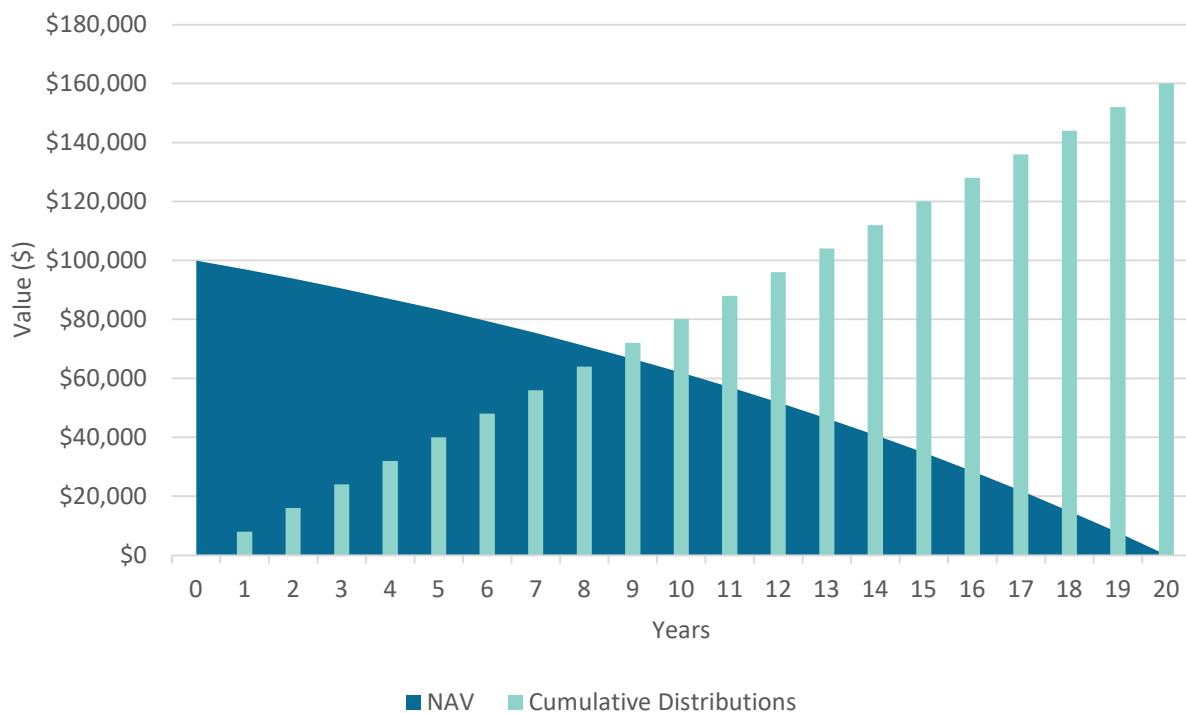

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "Risk Factors" section of the Fund's prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

The long-term total return and the sustainability of the rate of distributions of the Fund are impacted by sequence of returns risk and the volatility experienced within the sequence of returns. Sequence of returns risk is the risk that comes from the order in which investment returns occur – market declines in the early years of operation of the Fund paired with high levels of distribution increases the risks to the durability of the portfolio of the Fund. Significant declines in asset value in the early years of the Fund increase the likelihood that the initial distribution rate is unsustainable, while significant increases in asset value in the early years of the Fund increase the likelihood that the initial distribution rate can be sustained. For illustrative purposes, the following graph shows the potential total amount of distributions received by a unitholder of Series F Units of the Fund, based on an initial investment of \$100,000 and held from inception through the termination date of the Fund, which is December 31, 2042. The assumptions underlying the chart are as follows: consistent 4.8% continuously compounded net asset returns each year; and \$0.80 distribution per Series F Unit per year, each year, until the termination date of the Fund on December 31, 2042. For more information, see the "Risk Factors" section of the Fund's prospectus.

This section tells you how the Series F Units have performed in past calendar years. Returns are after Fund expenses have been deducted. These expenses reduce the series returns. However, this information is not available because the Fund has not yet completed a calendar year.

WHO IS THIS FUND FOR?

This Fund may be suitable for you if:

- You are primarily concerned with having sufficient income in retirement.
- Leaving capital behind for your estate is not one of your primary objectives.
- You are comfortable with low to medium investment risk.

A WORD ABOUT TAX

In general, you will have to pay tax on any money you make on a Fund including your share of the Fund's earnings and on taxable capital gains from redeeming your investment. How much tax you pay depends on your tax rate, whether or not you hold the Fund in a registered plan and the type of earnings of the Fund (e.g. interest, dividends, capital gains, etc.). In general, you do not pay tax on your investments held in a Registered Retirement Savings Plan, Tax-Free Savings Account or other registered plan.

If you hold your investment outside of a registered plan, you will receive a tax slip showing your share of the Fund's earnings. You must include the amounts shown in your taxable income whether you get them in cash or have them reinvested. You must calculate your taxable capital gains from redemption.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series F Units of the Fund.

The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

No sales charges apply when you purchase Series F Units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch Series F Units of the Fund.

Fee	What you pay
Fee-Based or Discount Brokerage Account	Series F Units are only available if you have a fee-based or discount brokerage account with a firm. Instead of paying sales charges, you may pay your firm a fee for ongoing financial planning advice or other services.
Switch Fee	0-2% of the value of Series F Units you switch. This fee is charged by your representative's firm.
Short-Term Trading Fee	2% of the current value of the Series F Units may be charged by us if you redeem or switch them within 45 days of purchase.

WHAT IF I CHANGE MY MIND?

Under securities laws in some provinces and territories you have the right to:

- (a) Withdraw from an agreement to buy mutual fund units within two business days after you receive a prospectus or Fund Facts document, or
- (b) Cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase or, in some jurisdictions, claim damages, if the prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act with the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
