

Sustainable Funds

Designed to help build and preserve wealth
while contributing to a sustainable world.

Responsible Investing Driven by ESG Integration

Institutional-Quality Portfolio Management

Diversification in one Convenient Package

Solutions that make a difference

The Sustainable Funds were designed as easy-to-use investment solutions rooted in helping you invest in a better world. Each Sustainable Fund has a critical focus on environmental, social, and governance (ESG) factors, allowing you to practice responsible investing while leveraging our decades of leadership in institutional asset management.

That means when you invest in Guardian Capital's sustainable solutions, we are putting 60 years of experience into your portfolio.*

The six Sustainable Funds are curated to offer you options when selecting the right mix of securities to support your values, goals, timeframe and tolerance for risk. Choose the solution that's right for you now, while feeling confident your investments are focused on making a positive difference for the future.

ENVIRONMENTAL

Issues affecting the natural environment

SOCIAL

Issues affecting people

GOVERNANCE

Issues related to how companies govern themselves

* Guardian Capital LP is a wholly owned subsidiary of Guardian Capital Group Limited and the successor to its original investment management business, which was founded in 1962.

Sustainable Funds

Diversified, multi-asset* ESG solutions

Sustainable Growth 100 Fund

This fund features 100% equities for long-term capital growth potential.

Best for you if:

- ✓ You are seeking capital growth
- ✓ You are comfortable with medium investment risk

Actively making a difference.

Each Sustainable Fund applies a high standard of ESG oversight, based upon disciplined and objective scrutiny from our experienced Responsible Investing team. In practice, this means screening each underlying fund to ensure its fund manager is a signatory of the United Nations-supported Principles of Responsible Investment, and to ensure it continuously meets established sustainability thresholds, as measured by Morningstar® Sustainability Ratings.™

* The Sustainable Funds are multi-asset solutions that aim to achieve their investment objectives primarily through investment in Guardian mutual funds and ETFs and/or third party mutual funds and ETFs (the "underlying funds").

Why is a Morningstar® Sustainability Rating™ important?

A Morningstar® Sustainability Rating™¹ helps investors understand the vulnerability of their investment portfolios to ESG issues; funds rated “High” indicate they are exposed to very little ESG risk vs. other comparable funds, while funds rated “Low” indicate they are exposed to considerable ESG risk. By including “High” and “Above Average” rated underlying funds within their portfolios, the Sustainable Funds aim to offer investment solutions with a focus on minimizing ESG risks, while the underlying funds managed by Guardian Capital LP exercise active ownership to influence companies’ approach to global sustainability efforts.

Tenured Professionals that bring Experience to every Decision

The Sustainable Funds’ investment team is comprised of forward-thinking, adaptive active managers that aim to deliver sustainable returns through sustainable solutions.

¹ The Morningstar® Sustainability Rating™ is intended to measure how well the issuing companies of the securities within a fund’s portfolio are managing their environmental, social, and governance (“ESG”) risks and opportunities relative to the fund’s Morningstar category peers, and is updated monthly. The Morningstar Sustainability Rating is depicted by globe icons where 5 globes equals High ranking (lowest ESG Risk) and 1 globe equals Low ranking (highest ESG Risk) compared to category peers, based off each fund’s Morningstar® Portfolio Sustainability Score™. A Sustainability Rating is assigned to any fund that has more than half of its underlying assets receiving an ESG Risk Rating from Sustainalytics, and is within a Morningstar Category with at least 10 scored funds; therefore, the rating is not limited to funds with explicit sustainable or responsible investment mandates. Please refer to <http://corporate1.morningstar.com/SustainableInvesting/> for more detailed information about the Morningstar Sustainability Rating and its calculation. Sustainalytics is an ESG and corporate governance research, ratings, and analysis company affiliated with Morningstar, Inc. © 2022 Morningstar®. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. Morningstar is an independent organization that groups investment funds with generally similar investment objectives for comparison purposes and ranks them on a historical basis. Ratings and/or ranking information is portfolio-based, not performance-based and is subject to change monthly. They do not reflect a fund’s performance on either an absolute or risk-adjusted basis, nor are they a qualitative Morningstar evaluation of a fund’s merits. They should not be the sole basis for an investment decision.

Please read the Fund Facts or prospectus before investing. Important information about the Sustainable Funds is contained in its prospectus. Contact your advisor or visit the Sustainable Funds’ website at: www.guardiancapital.com/investmentsolutions or www.sedar.com to obtain a copy of the Fund’s prospectus and Fund Facts. Commissions, trailing commissions, management fees and expenses all may be associated with investments in mutual funds. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. These mutual funds are offered in Canada only. This communication is for informational purposes only and does not constitute investment or financial advice or a recommendation to buy, sell or hold a security, and shall under no circumstances be considered an offer or solicitation to deal in any product or service mentioned herein.

Guardian Capital LP is a signatory of the United Nations-supported Principles of Responsible Investment (UN PRI). The UN PRI does not prescribe the exclusion of any particular type of company or industry; rather it requires that, as the Manager, we are informed on the ESG issues, and that we are comfortable with the activities and practices of the companies that we invest in. Our Responsible Investing policies are publicly available on our website at <https://www.guardiancapital.com/investmentsolutions/responsible-investing/>

Responsible investing is an approach to investing that incorporates ESG considerations into investment decisions. This approach may incorporate considerations beyond traditional financial information into the investment selection process, which could result in investment performance deviating from other products with comparable objectives or from broad market benchmarks.

Guardian’s Sustainable Funds and GEM Pools have ESG-related investment objectives, while other Guardian Mutual Funds and ETFs do not have ESG-related investment objectives. All Guardian Funds integrate ESG considerations into the investment analysis of all holdings within their respective portfolio. A Fund’s ESG characteristics and performance may change from time to time. Please review the Fund’s prospectus for details on how the Fund’s investment strategy incorporates responsible investing considerations and the associated risks, and consult your financial professional prior to investing.

Guardian Capital LP manages portfolios for defined benefit and defined contribution pension plans, insurance companies, foundations, endowments and investment funds.
